connecting people and their pets

Elaine with a client, Sophie

### Does your pet . . .

Tremble during thunderstorms?  
Have troublesome pain from an old injury?  
Go into a panic at the veterinarian's office?  
Move a lot slower as he's getting older?  
Refuse to cuddle when you'd like to get close?  
Panic and run from the groomer?  
Whine, cry, and ask for attention?

At Animal Bridges we enrich and deepen the bond that you have with your pet by applying loving and healing techniques that calm fear, build confidence, soothe pain, and help to bring out the best in your pet. And when I communicate with your animal companion, I can help you further strengthen that bond by providing you with unique insight about your pet's thoughts and concerns.

Dora and Daphne, clients

Dogs, cats and pets of all shapes and sizes also benefit from Animal Bridges' gentle, loving methods:

- Animal Communication: telepathic exchange over distance
- Bach® Flowers: emotional balance restoration
- Healing Touch for Animals® (HTA): energy field therapy
- Tellington TTouch®: bodywork and movement

## Services

- Private consultation in your home and on the phone
- Demonstrations
- Group classes

## Out of Control

Jackson was out of control on walks and barked excessively at other dogs. When she met with Elaine, Janice learned about dogs' nonverbal signals and a more effective leash configuration.

"Meeting with you taught me how I was misreading Jackson's behavior. That is just as important, if not more important, than using a new kind of leash. He is more confident and so am I."

*Janice Kuschner, Minneapolis, MN*

## Excessive Grooming

Wadsworth was under veterinary care for several months for his excessive grooming. He had seven hairless bloody spots. Elaine talked to him and created a blend of Bach® flower remedies. Within two weeks, hair was growing back on five spots and two spots had scabs.

Two months later,  
"Wadsworth is doing really well."

*Claire Marie Kohout, Hudson, WI*

## Crossing Over

Calvin, a 7 ½ year old lab, had a cancerous tumor on his leg. Nicole asked Elaine to support his holistic treatments with HTA. Several months later, she asked Elaine to communicate with him to be sure he was ready to pass on.

"I can't imagine going through the process of letting go of Calvin without your support. I have peace & comfort knowing you were there for Calvin, helping him heal and feel peaceful through his transition."

*Nicole Principato, Minneapolis, MN*

## Fearful and Shy

At her first session, timid Gracie would not come within 10 feet of Elaine. After several TTouch® sessions, Gracie ran up to her.

"Gracie went from being terrified of everything including cars, people, and fire hydrants to taking obedience level 5 classes, kayaking, and joining me running around the lakes. Thank you!"

*Janelle Ranek, Minneapolis, MN*

## Allergies

For most of Lwood's life, he had suffered from allergies (itching, chewing, licking) and was under veterinary care. Elaine helped Lwood with HTA and essential oils and taught Denise simple TTouch® techniques that she now uses with Lwood and her other dogs.

"I am seeing a new and improved Lwood today. [Even] with all the trees blooming, his allergies are better!"

*Denise Anderman,  
Golden Valley, MN*
